

G.R. System S.r.l. designs and manufactures slaughtering systems from small to high production capacity with the work experience of more than thirty years.

Engineer Gianni Rovani established G.R. in the 1982; in 1988 the name of the society became G.R.System s.r.l..

#### **ABOUT US**

Worldwide, there are a lot of slaughtering lines in operation, that produce high-quality food products, designed and manufactured by G.R.System s.r.l..

G.R.System s.r.l. has got a long work experience in slaughtering systems field, attention to the costumer's needs, care in raw materials, knowledge of hygienic, animal welfare and safety regulations.

G.R.System Slaughtering lines are projected to have high standard of quality, to reduce labor costs, to be easy to clean and to manage.

G.R.System s.r.l. pays attention to raw materials: it uses only materials suitable for direct food contact.

#### **SERVICE**

G.R.System s.r.l. has got a qualified technical staff to support you with the slaughtering line maintenance with a service active very day of the year.

G.R.System s.r.l. helps you to do slaughtering line adjustments and optimizations to improve your slaughtering line because the market and technology are constantly changing.

G.R.System s.r.l. adds or replaces a machine in a very short time because the market and technology are constantly changing.

G.R.System s.r.l. designs, manufactures and installs slaughtering lines for porks, horses, cattle and sheep.

G.R.System s.r.l. designs and manufactures waste water treatment plants for the meat Industry; at the end of the waste water treatment it can do the discharge in sewer systems according to the environmental regulations.

## OUR EXCELLENCES

Our best machines are:

-ritual trap for cattle slaughtering line;

-mechanical dehiding platform to do an excellent cattle dehiding;

---

## **COSTUMER SERVICE**

G.R.System s.r.l. gives technical assistance to the costumers' needs for production line changes.

G.R.System s.r.l. has got technical operators specialized in maintenance of machineries.

## **CERTIFICATION**

G.R.System s.r.l. designs, manufactures and installs machines according to the UE norms CE.

G.R.System s.r.l. is certificated ISO 9001:2015 for the quality process.

G.R. System S.r.l. pays attention to the choise of row material, it respects g.m.p. and gives declaration of conformity to M.O.C.A.
